

Design It. Build It. Grow It!

If you are a school who would like to offer horticulture as a study option for your students then we have the solution for you.

We design programs specifically tailored to students & schools requirements.

Our programs are particularly well suited to kinaesthetic learners and we can also assist with work placement programs if this is applicable.

Our team are highly qualified, and well respected in the Horticulture industry. Each team member has a current TAE qualification and a Working with Children check.

The programs are lead by Quentin Kirley, who currently runs a VCAL based program for St Bernard's College in Essendon, along with his own successful landscape design company.

Quentin is passionate about teaching and bringing horticulture to people's lives.

To make a time to discuss tailoring a program to suit your needs, contact Quentin Kirley on 0400 112 253 or email quentin@qgardensanddesign.com.au

Certificate II in
Horticulture to VCAL
students as part of a
VET in schools
program.
